Removal & Installation

REMOVAL AND INSTALLATION

REMOVAL

1. Remove the front seat ([Refer to Body/Seats/SEAT/Removal and Installation](#))(Refer To List 1).
2. If equipped with recliner and height adjust handles, use a small flat bladed tool and remove the handle screw covers. Remove the screws then pull each handle to remove.
3. Remove the screws (2) at the front and back of the outboard side shield (3).
4. Pull out at the bottom to release the retaining clips, then push forward and lift to remove.
5. Disconnect the wire harness connectors from the switches (1).

6. Remove the screws (1) at the front and back of the inboard side shield (2).

7. Pull out at the bottom to release the retaining clips, then push forward and lift to remove.

INSTALLATION

1. Position the inboard side shield (2) and engage the retaining clips.

2. Install the recliner and height adjust handles, if equipped.

3. Install the screws (1) and tighten securely.

4. Connect the wire harness connectors to the switches (1).
5. Position the outboard side shield (3) and engage the retaining clips.
6. Install the screws (2) and tighten securely.
