## Removal & Installation

### REMOVAL AND INSTALLATION

#### REMOVAL

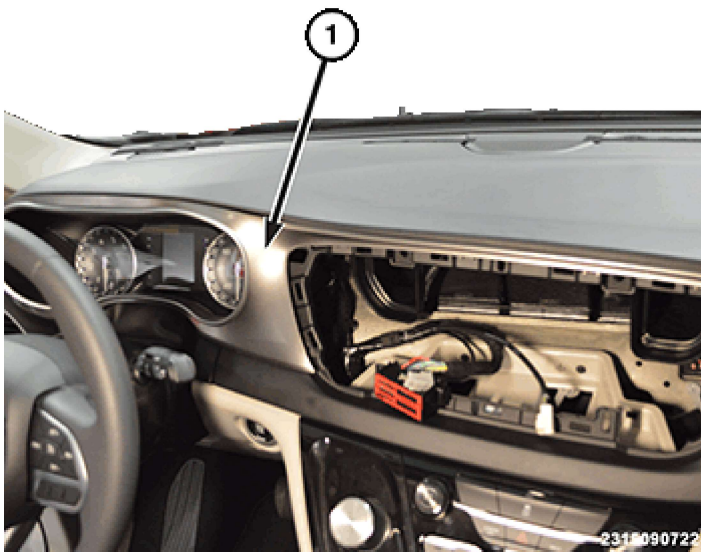

1. If PHEV, power down the 12-volt system (Refer to 08 - Electrical/Standard Procedure).
2. Disconnect and isolate the negative battery cable.
3. Lower the steering column to the lowest position and pull the steering wheel to the full rear position.
4. Using a trim stick, release the center vent bezel (1) from the instrument panel. Disconnect the wire harness connector and remove.

5. Using a trim stick or equivalent, carefully remove the instrument cluster bezel (1).

## INSTALLATION

1. Position the instrument cluster bezel (1) and hand tap to engage the retaining clips.

2. Connect the wire harness connector, then position the center vent bezel (1) and hand tap to engage the retaining clips.
3. Connect the negative battery terminal.
4. If PHEV, power up the 12-volt system (Refer to 08 - Electrical/Standard Procedure).
