Removal & Installation

REMOVAL AND INSTALLATION

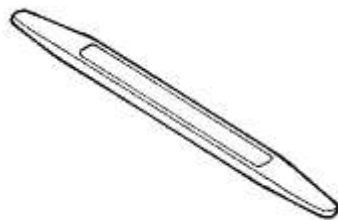

REMOVAL

1. Disconnect and isolate the battery negative cable.

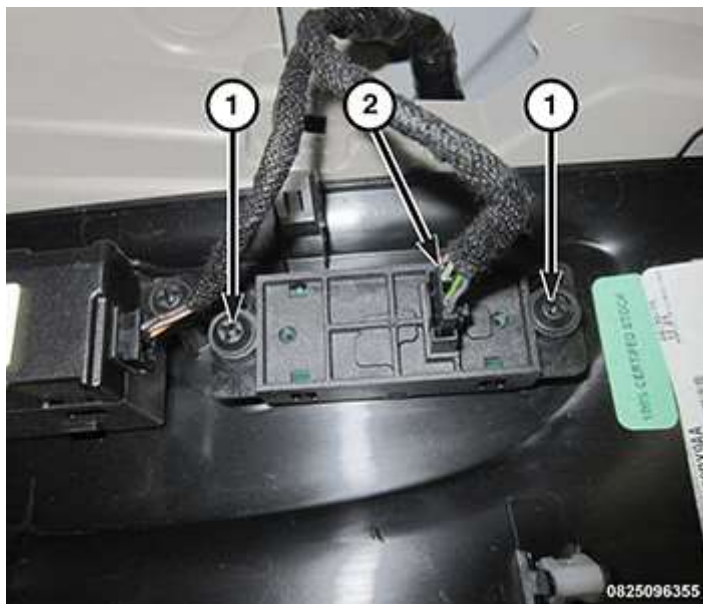

2. Using a trim stick (1)

Trim Stick

or equivalent, disengage the seat switch bezel (2) from the D-Pillar trim panel.

3. Disconnect the switch electrical connector (2).
4. Remove two screws (1) securing the switch to the bezel.
5. Remove the switch.

INSTALLATION

1. Secure the switch to the bezel using two screws.
2. Position and align the seat switch with bezel into the D-pillar switch opening.
3. Connect the switch electrical connector.
4. Push switch into upper D-Pillar trim panel until both the upper and lower retaining tabs are fully engaged.
5. Connect the battery negative cable.
6. Using an appropriate scan tool, check and erase any third row power folding seat control module diagnostic trouble codes related to the D-Pillar switch.
