

YOUR CURRENT VEHICLE

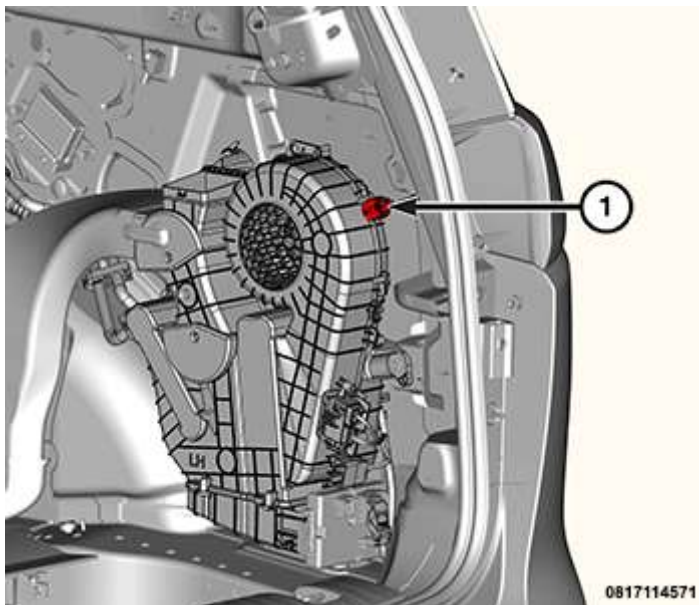

2018 Chrysler Pacifica

Removal & Installation

REMOVAL AND INSTALLATION

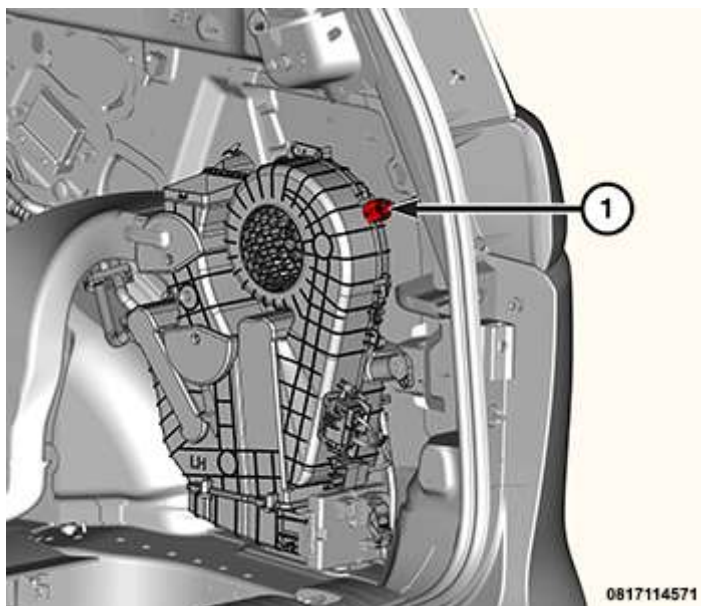

REMOVAL

1. Disconnect and isolate the negative battery cable. If equipped with an Intelligent Battery Sensor (IBS), disconnect the IBS connector first before disconnecting the negative battery cable.
2. Remove the scuff plate from the liftgate opening sill. ([Refer to Body/Interior/PLATE, Scuff, Liftgate Sill/Removal and Installation](#)).

3. Move the quarter trim panel away from the lower right inner D-pillar far enough to access the power liftgate chime (1). ([Refer to Body/Interior/PANEL, D-Pillar Trim/Removal and Installation](#)).
4. Disconnect the body wire harness connector from the chime pigtail wire connector.
5. Disengage the retainer integral to the chime pigtail wire connector from the body sheet metal.
6. Disengage the retainer integral to the chime housing from the body sheet metal.
7. Remove the chime from the vehicle.

INSTALLATION

1. Position the power liftgate chime to the Right inner D-pillar in the vehicle (1).
2. Engage the retainer integral to the chime housing into the hole in the inner D-pillar.
3. Reconnect the chime pigtail wire connector to the body wire harness connector for the chime.
4. Engage the retainer integral to the chime pigtail wire connector with the hole in the inner D-pillar.
5. Reinstall the quarter trim panel to the lower right inner D-pillar. ([Refer to Body/Interior/PANEL, D-Pillar Trim/Removal and Installation](#)).
6. Reinstall the scuff plate onto the liftgate opening sill.(Refer to 23 - Body/Interior/PLATE, Scuff, Liftgate Sill/Removal and Installation).
7. Connect the negative battery cable. If equipped with an Intelligent Battery Sensor (IBS), connect the IBS connector to the negative battery cable.
