Removal & Installation

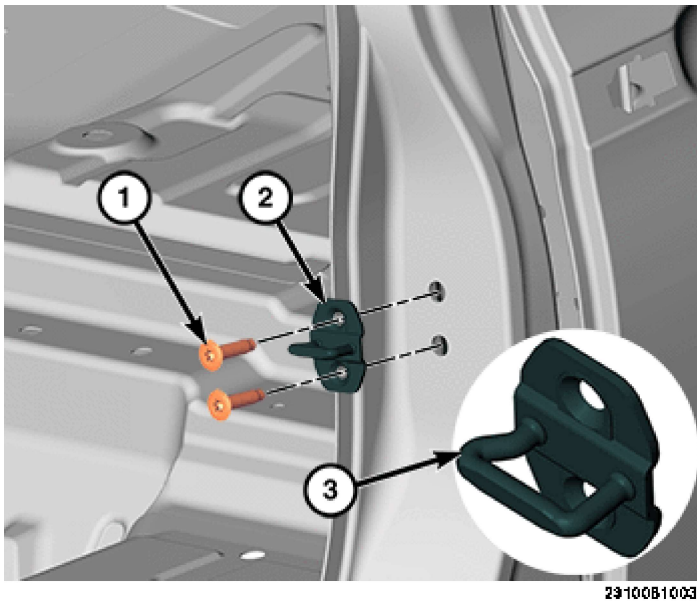

REMOVAL AND INSTALLATION

REMOVAL

1. Open the front door.
2. Mark the front door latch striker (2) location on the face of the outer B-pillar to aid installation.
3. Remove the two screws (1) that secure the striker (2) to the B-pillar.
4. Remove the striker from the B-pillar.

INSTALLATION

**NOTE**

Make sure the protrusion (3) is orientated towards the interior of the vehicle.

1. Position the front door latch striker (2) on the face of the outer B-pillar.
2. Install the two screws (1) that secure the striker to the B-pillar.
3. Tighten the two screws (1) that secure the striker (2) to the proper [Torque Specifications](#).
4. Adjust the latch striker position as necessary to achieve proper door spacing and latch operation.
