Removal & Installation

REMOVAL AND INSTALLATION

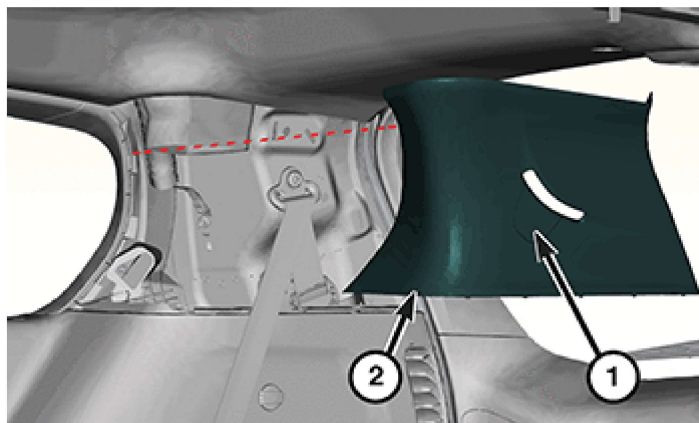

REMOVAL

1. Observe all warnings for seat belt retractor removal and installation ([Refer to Restraints/RETRACTOR, Seat Belt/Removal and Installation](#)).
2. If servicing the right side D-pillar, remove the cover panel (2) in the quarter trim panel for the lower seat belt anchor (1) and unbolt the lower seat belt anchor.

3. If servicing the left side D-pillar, remove the screws (2) then the cover panel (1) in the quarter trim panel for the lower seat belt anchor (3) and unbolt the lower seat belt anchor.

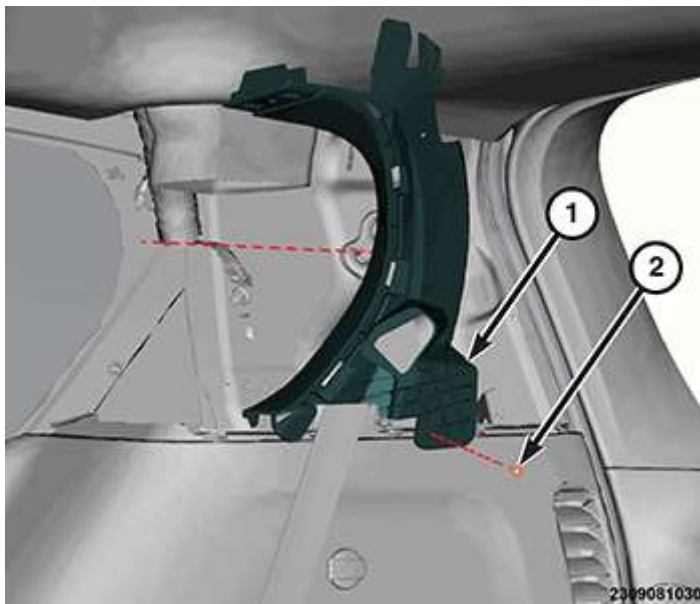

4. Remove the seat belt cover (1) by hand.
5. Using a trim stick or equivalent, release the retaining clips at the rear and top of the D-pillar trim panel (2).
6. Using a trim stick release the bottom of the D-pillar trim panel from the quarter trim panel, then pull at the front edge to release the front retaining clips.
7. If servicing the left side D-pillar, disconnect the liftgate switch.

8. Using a flat bladed tool, press the tab to disengage the airbag tether and slide it out of D-pillar trim panel.

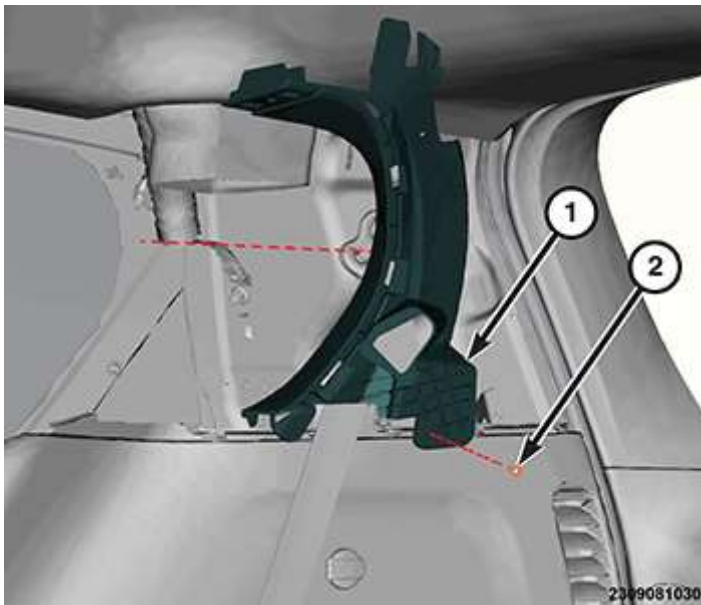

9. If necessary to remove the C-pillar extension (1), open the coat hook (2) and remove the screw (3).

10. Using a trim stick or equivalent, remove the C-pillar extension trim panel.

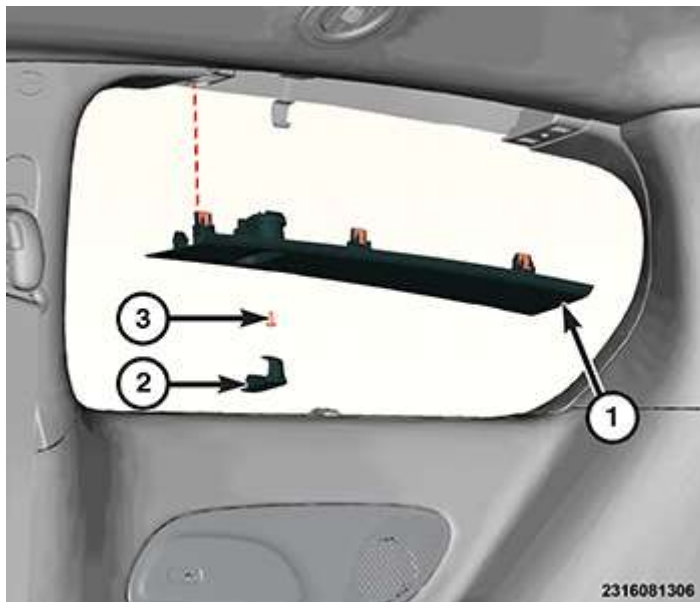

11. If necessary to remove the D-pillar extension (1), first remove the rear duct tube and the screw (2).
12. Remove the curtain airbag push-fastener that is installed through the D-pillar extension, then unclip and lower the extension to remove.

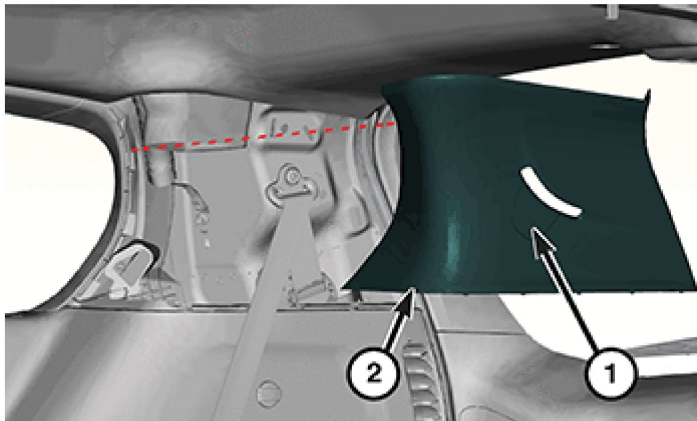

INSTALLATION

1. Observe all warnings for seat belt retractor removal and installation ([Refer to Restraints/RETRACTOR, Seat Belt/Removal and Installation](#)).
2. If necessary, install the D-pillar extension (1) and the screw (2). Tighten the screw securely.
3. Install the curtain airbag push-fastener and the rear duct tube.

4. If necessary, install the C-pillar extension (1), then the coat hook (2). Tighten screw (3) securely.

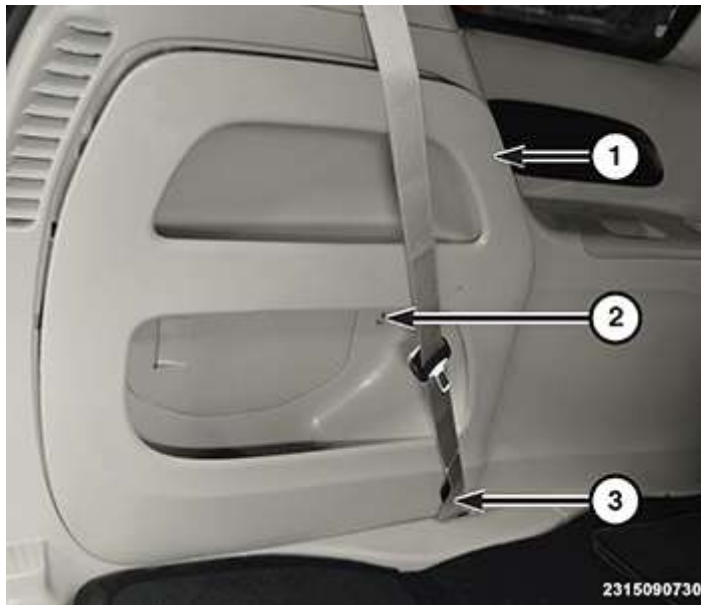

2316081304

5. Route the seat belt through the D-pillar trim panel (2).
6. Install the airbag tether to the backside of the D-pillar trim panel.
7. If servicing the left side D-pillar, connect the liftgate switch.
8. Install the front edge of the D-pillar trim panel to the body.
9. Engage the bottom of the D-pillar trim panel into the quarter trim panel.
10. Engage the retaining clips at the rear and top of the D-pillar trim panel.

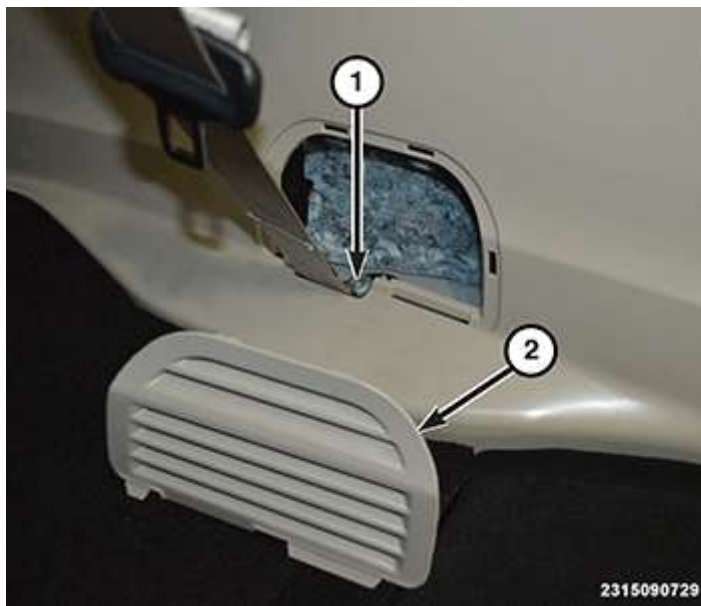

NOTE

Make sure the D-pillar trim panel engages into the weatherstrip properly.

11. Install the seat belt cover (1).
12. Install the lower seat belt anchor ([Refer to 10 - Restraints/RETRACTOR, Seat Belt/Removal and Installation](#)).

13. If servicing the left side D-pillar, install the cover panel (1) in the quarter trim panel.

14. If servicing the right side D-pillar, install the cover panel (2) in the quarter trim panel.
