Removal & Installation

REMOVAL AND INSTALLATION

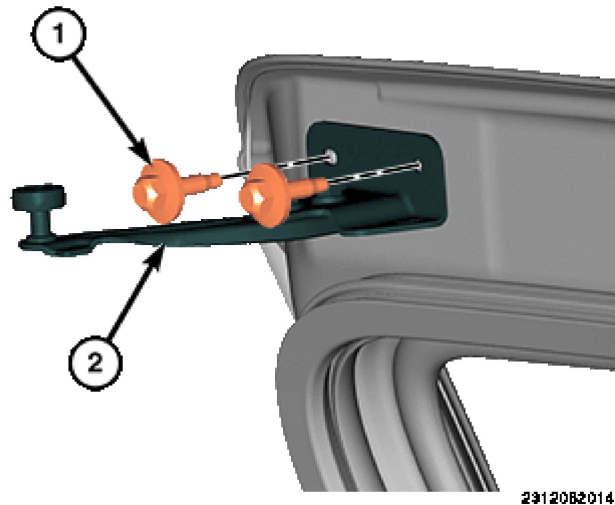

REMOVAL

2312082014

1. Open the sliding door but do not latch it open.
2. Mark the outline of the upper hinge (2) bracket on the sliding door.
3. Remove the upper hinge fasteners (1).
4. Remove the upper hinge (2) from the door.
5. Rotate the roller out of the upper track.
6. Remove upper hinge (2) from vehicle.

INSTALLATION

**NOTE**

A suitable body sealant should be used when removing or moving the hinges.

1. Rotate the roller into the upper track.
2. Place the upper hinge (2) in position on door and aligned with the marks made during removal.
3. Install the upper hinge fasteners (1).
4. Verify sliding door alignment and operation. Adjust as necessary. ([Refer to Body/Doors - Sliding/DOOR, Sliding - Adjustments](#)).
