Removal & Installation

REMOVAL AND INSTALLATION

REMOVAL

**230998102T**

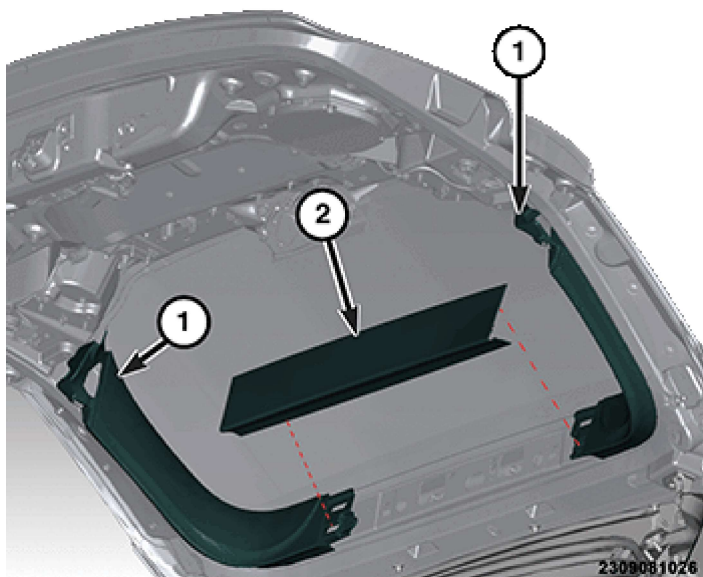

1. Open the liftgate.
2. Using a trim stick or equivalent, remove the liftgate lamp (3) and disconnect the wire harness connector.
3. Using a trim stick or equivalent, release the top of the pull cup (1) first then the bottom and remove. Remove both pull cups.
4. Using a trim stick or equivalent, release the retaining clips and remove the lower liftgate trim panel (2).

5. Using a trim stick or equivalent, release the retaining clips and remove the upper liftgate trim panel (2).

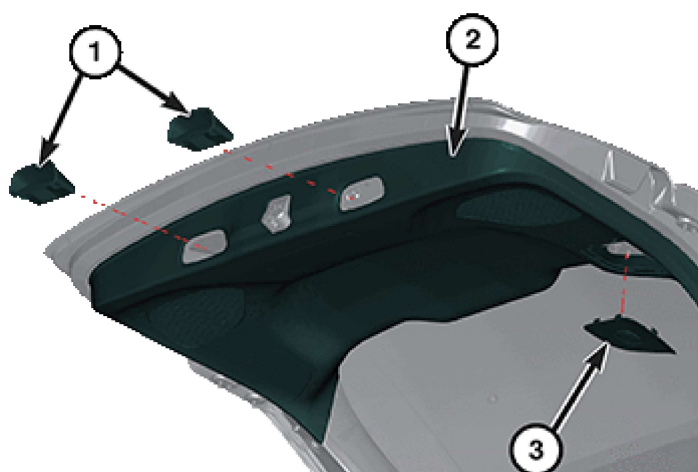

6. Using a trim stick or equivalent, release the retaining clips and remove the side liftgate trim panels (1).

INSTALLATION

1. Position the side liftgate trim panels (1) onto the liftgate. Using hand pressure, press firmly to engage the retaining clips.

2. Position the upper liftgate trim panel (2) onto the liftgate. Using hand pressure, press firmly to engage the retaining clips.

**2309081027**

3. Position the lower liftgate trim panel (2) onto the liftgate. Using hand pressure, press firmly to engage the retaining clips.
4. Install both pull cups (1).
5. Connect the wire harness connector to the liftgate lamp (3) and install.
